

Module 1: Introductie

Workshop 1: My First Webpage

This exercise was really easy and simple. This did take me a little longer, because of the placement. I also learned that from this exercise, which is nice because now I no longer need Bootstrap (I'll still keep using it).

Workshop 3: Styling your webpage

This exercise was also really easy and simple. This did take me a little longer, because of the placement. I also learned that from this exercise, which is nice because now I no longer need Bootstrap (I'll still keep using it).

Keyboard Printing/ Remote Control

This exercise leads to the page where I print a keyboard on screen using JavaScript! It also types by itself, so give in a word and it'll type it as well!

[Go to exercise »](#)

Workshop 4: Chessboard Printing

This exercise leads to the page where I print a chessboard on screen using JavaScript! There are no pieces yet, and they can't move either.

[Go to exercise »](#)

Workshop 5/5a: Wall Printing

This exercise leads to the page where I print a wall on screen using JavaScript! It's nothing much, but there was some CSS practice in there.

Breakweek

We have a Breakweek and I decided to do a little bit of working with a form with PHP. I made a form that works with a database to store and get data, so then show it to the user.
